Gentlemen,

Hope this email finds you well. I wanted to thank you again for all of our communications and meetings over the past couple of years. You've been helpful and I very much appreciate it. It makes a big difference to the community.

We are setting a meeting for a luncheon on the 27th of this month for the private security companies and the HCBID to come together to network, discuss some possible techniques for deescalating/mental illness/under the influence. This was requested by a few of our local security guards as they have been overwhelmed by recent incidents and need some support and direction. We wanted to offer this in partnership with them.

If we could get some LAPD folks there with experience in this area that would be wonderful. Lunch will be provided. It isn't a training per se but more of a best practices or general tips and an opportunity for us to get to know each other. It will come in handy for future communications, I am certain.

Please let me know. I imagine the meeting will be about an hour and a half including introductions.

Thank you,

Blair Besten
